Subject: EPA1615 armored RNA for norovirus

---

Hi, Dr. Fout,

We are setting up the virus assays using EPA1615 methods. I called AsuranGen, they do not make armored RNA for norovirus to supporting EPA1615, if they do, they will charge \$20,000 per armored RNA. It is too expensive for us. I wonder if we can get a small aliquot from you.

I have ordered Armored RNA Quant Enterovirus, Armored RNA for Hepatitis G virus, as well as poliovirus Sabin 3. I also have a couple of people helping me to setup the water sample processing apparatus and build the lab. I got strong support from our Chemistry Dept, they have done a lot of analysis on water samples.

I did postdoc in poliovirus lab long time ago working on poliovirus replicons, see attached. It is fun to do plaque assays. I did so many.

Best

Charlie

This Email message contained an attachment named  
image001.jpg  
which may be a computer program. This attached computer program could  
contain a computer virus which could cause harm to EPA's computers,  
network, and data. The attachment has been deleted.

This was done to limit the distribution of computer viruses introduced  
into the EPA network. EPA is deleting all computer program attachments  
sent from the Internet into the agency via Email.

If the message sender is known and the attachment was legitimate, you  
should contact the sender and request that they rename the file name  
extension and resend the Email with the renamed attachment. After  
receiving the revised Email, containing the renamed attachment, you can  
rename the file extension to its correct name.

For further information, please contact the EPA Call Center at  
(866) 411-4EPA (4372). The TDD number is (866) 489-4900.
